Highlights

- Allows 1 user to access multiple parallel devices or multiple users to share a parallel device
- Rugged manual switches

System Requirements

- Computer with a DB25 port

Package Includes

- B105-002-R Manual 2 Position Data Switch

Description

Tripp Lite's 2-Port Manual Data Switch is the economical solution for connecting two computers to one parallel/serial device such as a printer or two parallel/serial devices to one computer. The switch saves significant hardware costs by enabling printer or peripheral sharing. The 2-Port Manual Data Switch supports parallel or serial devices and features straight-through connection on all 25 lines. The 2-Port Manual Data Switch features a fully-shielded rugged metal case with a front-panel switch. It does not require any AC power to operate. Tripp Lite warrants this product to be free from defects in materials and workmanship for life. Packaged in a retail box.
