

Please see below under **Resources > Product Literature** for the Power Cord Selector Worksheet for both input and output power cord selection.

# Isolator Series Dual-Voltage 115/230V 300W 60601-1 Medical-Grade Isolation Transformer, C14 Inlet, 4 C13 Outlets

MODEL NUMBER: IS300HGDV

Transformer with full CAN/ES/IEC/EN 60601-1 listing offers line isolation, step-up and step-down capabilities, and continuous noise filtering in protecting medical electronic equipment used in patient-care vicinities.

#### Description

The IS300HGDV Isolator® Series Dual-Voltage 115/230V 300W 50/60Hz Medical-Grade™ Transformer with full CAN/ES/IEC/EN 60601-1 listing is ideal for protecting sensitive electronic equipment in patient-care vicinities. It can be configured for either step-up voltage, step-down voltage or pass-through voltage operation. Along with line isolation and continuous EMI/RFI line noise filtering, its surge protection rating of 240 joules suppresses excess voltage to prevent it from damaging connected equipment.

An internal low-impedance isolation transformer component offers 100% isolation from the input mains AC line. Faraday shield reduces the cumulative leakage current of the IS300HGDV and connected equipment to levels less than 50 microamps, while removing utility switching transients and harmonics generated by other on-site loads and reducing the impact of utility-related surge conditions.

Transformer filtering provides continuous common-mode noise rejection with no wearable parts. The IS300HGDV reduces 6000V IEEE 587 Category A and B ring wave and combination wave test surges to only 0.5V common mode.

Components connect to four C13 outlets with fuse overload protection and a lighted on/off switch. The rugged all-metal unit housing ships ready for placement in any industrial, medical, office, network or audio/video environment. Requires a C13 AC input cord with country specific plug (sold separately).

#### **Features**

Full CAN/ES/IEC/EN 60601-1 Medical-Grade Listing with C14 Inlet and 4 C13 Outlets Ideal for protecting sensitive electronic equipment in patient-care vicinities Reduces cumulative leakage current of Isolator and connected equipment to levels less than 50 μAlnexpensive alternative to dedicated circuits and site electrical upgrades Rugged all-metal housing designed to with stand frequent use in busy environments Requires a C13 AC input cord with country specific plug (sold separately)

Selectable 115/230V Input/Output Voltage Suitable for Most ApplicationsStep-up, step-down or pass-through voltage operation (input frequency always equals output frequency)Internal low-impedance

## **Highlights**

- Protects sensitive equipment from EMI/RFI line noise and surges
- Cumulative leakage current less than 50 µA
- Automatically shuts down all outlets in case of overload
- Offers complete isolation from input AC mains power
- Ideal for use in any industrial, network or medical environment

### **Package Includes**

- IS300HGDV Isolator Series Dual-Voltage 115/230V 300W 60601-1 Medical-Grade Isolation Transformer
- (2) Fuse sets (115V and 230V operation)
- Input/output cable selector data sheet
- · Owner's manual

toroidal isolation transformer with Faraday shield offers 100% isolation from mains AC power lineAutomatically shuts down all outlets in case of overloadShips ready for placement in any industrial, medical, office, network or audio/video environment

Protects Connected Equipment from Dangerous Spikes, Surges and Line NoiseLine isolation, continuous noise filtering and 240 joules of AC surge protectionRemoves EMI/RFI noise, utility switching transients, load-generated harmonics and ground loopsFloating AC output prevents noise coupling from noisy ground circuitsReduces 6000V IEEE 587 Category A and B ring wave and combination wave test surges to only 0.5V common mode

# **Specifications**

OVERVIEW		
UPC Code	037332199980	
Nominal Voltage / Frequency	115/230 VAC 50/60 HZ (Voltage Selected by Input Power Module Fuse Installation	
VA / Watt Capacity	300	
Transformer Type	Medical Grade, Low Impedence Toroid- Line Isolation (Pass Through or Step UP or Step Down)	
INPUT		
Nominal Input Voltage Description	115/230 VAC (Selected by Input Power Module Fuse Installation) Operating Input Voltage Range 100-125Vac or 200-250VAC	
Input Frequency	50/60HZ	
Maximum Surge Amps	70A	
Input Current	3.15A @ 115V / 1.6A @ 230V	
THDi	Less than 1%	
Power Input Receptacle	IEC-320-C14	
ОИТРИТ		
Output Voltage Regulation (Line Mode)	5.2%	
Output Receptacles	(4) C13	
Output Nominal Voltage	115V/230V (Selected by Output Switch) Can also be step up or step down, Selected when Installing Fuses.	
Outlet Details	Qty 4 Receptacles	
ISOLATION		
Output Isolation Transformer	Toroid with AC output Floating with Respect to Earth Ground. POAG and Earth Ground Studs.	
Leakage Current	Max AC Leakage Current 50 (uA)	
SURGE / NOISE SUPPRESSION		
AC Suppression Joule Rating	240	
IEEE587 Cat. A Ringwave Let- Through	Reduced to 0.5v Common Mode	

Noise Suppression Rating	35-65 dB
PHYSICAL	
Color	White
Material of Construction	Metal (Cabinet)
Cooling Method	Convection
Shipping Dimensions (hwd / in.)	8.27 x 9.84 x 12.80
Shipping Dimensions (hwd / cm)	21.01 x 24.99 x 32.51
Shipping Weight (lbs.)	13.62
Shipping Weight (kg)	6.18
Unit Dimensions (hwd / in.)	4.330 x 5.910 x 7.870
Unit Dimensions (hwd / cm)	11 x 15 x 20
Unit Weight (lbs.)	12.35
Unit Weight (kg)	5.60
ENVIRONMENTAL	
Operating Temperature Range	32° to 104°F (0° to 40°C), Intended Application is in a controlled environment at approx. 77°F.
Storage Temperature Range	5° to 122°F (-15° to 50°C)
Operating Elevation (m)	Up to 3000m
Operating Humidity Range	5% to 95% RH (Non-Condensing)
FEATURES & SPECIFICATIONS	
Over Current Protection	2 x 3.15A @ 115V and 2 x 1.6A at 230V ( Both Fuses included with Product as Accesories)
OPERATION	
System Type Selections	Input Voltage equals Output Voltage OR 120V input equals 230V output OR 230V Input equals 120V output - (Selectable when installing Fuses) Input Frequency always equals Output Frequency
STANDARDS & COMPLIANCE	
Product Certifications	IEC 60601-1; CAN/CSA-C22.2 No. 60601-1 (Canada); NOM (Mexico)
Product Compliance	RoHS; CE (Europe)
WARRANTY & SUPPORT	
Product Warranty Period (Worldwide)	2-year limited warranty
