12 Ton Crimp Head with HHLD Die Holders Only	**molex®** **Application Tooling Specification Sheet**	
		Order No. 19286-0058

FEATURES

- Crimps a wide range of products with interchangeable tool kits, which reduce the overall cost and provide production flexibility.
- Crimping dies are easily and quickly interchanged to reduce production down time.
- Complete portable system that allows tool to be moved and stored easily.

SCOPE

This 12 Ton Crimp Head is used in the Putt Pump Hydraulic Head Crimper (Order No. 19286-0117) and the Elect Powered Hydraulic System for HHL Dies (Order No. 19286-1300). Refer to the appropriate tool instruction manual for installation and operation information.

Products: See Product List in TM-192860117 or TM-192861300 Operation Manuals.

DESCRIPTION

The Molex Putt Pump Hydraulic Head Crimper is designed to crimp 8 to 4/0 AWG insulated and un-insulated terminals and splices.

> **CAUTION**: Molex crimp specifications are valid only when used with Molex terminals and tooling.

Maintenance

It is recommended that each operator of the tool be made aware of, and responsible for, the following maintenance steps:

1. Remove dust, moisture, and other contaminants with a clean brush, or soft, lint free cloth.
2. Do not use any abrasive materials that could damage the tool.
3. Make certain all pins; pivot points and bearing surfaces are protected with a thin coat of high quality machine oil. Do not oil excessively.
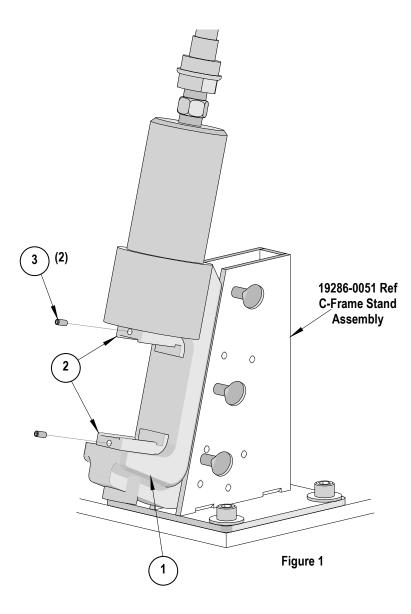

When tool is not in use, store in a clean, dry area.
