MODEL NUMBER: SUINT2000XL

Description

Tripp Lite's SmartOnline SUINT2000XL on-line, double-conversion UPS protects critical server, networking and telecommunications equipment from blackouts, voltage fluctuations and transient surges. Space-saving upright tower format. Large capacity 2000VA/1400W UPS continuously converts incoming AC to DC, then back to perfect sine wave AC output at selectable 220/230/240V AC (+/-2%). Removes harmonic distortion, fast electrical impulses, frequency fluctuations and other hard-to-solve power problems not addressed by other UPS types. True sine wave output and zero transfer time offer guaranteed compatibility with all equipment types. Includes 8 C13 outlets. Battery support can be extended with external battery packs. Includes slot for internal network management card, plus DB9 enhanced serial monitoring port for unattended shutdown, remote control and monitoring of UPS system and power data.
