

# SuperMini 5K

Energy Bar Size | 18W Power Delivery | 5,000mAh

SuperMini 5K is energy bar size power bank, but with super-high-density battery cells. With 5,000mAh and 18W fast charging capability, it'll keep your phone charged long after the day is done.

## | An Energy Bar with 5,000mAh

The energy bar size of SuperMini 5K can easily fit in any bags and pockets without any concern of oversize. By using a type of battery cell called 21700, the pocket-friendly SuperMini 5K can provide 5,000mAh of charging capacity, making it 50% more energy dense than the cells used in a typical power bank.

## | 18W PD Fast Charge

With 18W Power Delivery, SuperMini 5K can fast charge iPhone X up to 50% in 30 mins with a USB-C to lightning cable. And USB-A port supports ZEN+2.0 Adaptive Charge, taking advantage of the rapid-charging capabilities of compatible QC 3.0 devices.

SuperMini 5K equips with a USB-C port and a USB-A port, which can fast charge 2 smart phones with up to 18W total output simultaneously.

### | Extend 20+ Hours Phone Usage

SuperMini 5K can simply provide 1-2 times mobile power for smartphones with 5,000mAh capacity, which can extend 20+ hours phone usage.
