Protect It! 6-Outlet Surge Protector with 3 Rotatable Outlets – Direct Plug-In, 1200 Joules, 2 USB Ports

MODEL NUMBER: SWIVEL6USB

Swivel surge protector with USB safeguards your home/office electronics against dangerous surges, spikes and line noise.

Features

Swivel Surge Protector with USB Safeguards Your Sensitive Electronics Ideal for your home or office workstation, this Protect It[®] 6-outlet swivel surge protector features a surge protection rating of 1200 joules to defend your sensitive electronic components against even strong power surges and spikes. Because residential power outlets have three wires—hot line (H), neutral (N) and ground (G)—the SWIVEL6USB protects all three, covering the two protection modes: full normal mode (H-N) and common mode (N-G/H-G).

6 Outlets Accept a Wide Range of Electronic DevicesThe direct plug-in design converts two standard wall outlets into six. Plug your PC, printer, scanner, router, modem, television, stereo receiver and other home/office electronics into six NEMA 5-15R AC outlets to protect them against dangerous surges, spikes and line noise.

2 USB Ports Share 3.1 Amps of Charging PowerDual USB-A ports are available for charging your smartphone, tablets and other USB mobile devices, which are also protected from the damaging effects of surges, spikes and line interference.

Rotating Outlets Help Accommodate Bulky Transformers Three of the six outlets rotate 90 degrees to allow great flexibility in placing connected devices or accepting bulky transformers without blocking adjacent outlets.

Premium Protection from EMI/RFI Line Noise Helps Your Equipment Perform BetterVarious electromagnetic and radio sources found in virtually every home and business can cause disruptive interference on the AC line. Known as EMI (electromagnetic interference) and RFI (radio frequency interference), this line noise is a common cause of performance problems. This swivel surge protector with USB filters out disruptive line noise that can disturb your electronics and inflict hardware damage or data loss. This EMI/RFI filtering also helps your connected components perform better with longer lifespans.

Includes the Latest Safety FeaturesAn integrated 15A circuit breaker protects all outlets and automatically cuts power to outlets if protection circuit is incapacitated, preventing equipment damage and

Highlights

- Rotating outlets accommodate bulky transformers without blocking other outlets
- 1200 joules protect your valuable electronics against dangerous surges/spikes/line noise
- Direct plug-in design (no power cord) for easy transport in briefcase or luggage
- 2 USB ports share 3.1A for fast charging of phone, laptop and other mobile devices

Applications

- Protecting computers, modems, home theater equipment and other valuable electronics against AC power surges and spikes
- Filtering potentially damaging line noise to improve connected equipment's performance and lifespans
- Safeguarding valuable data against damage stemming from unexpected interruptions in power
- Charging a smartphone, tablet or other USB devices via the dual USB ports

Package Includes
