29970400 SPECIFICATION

Convex Lens LED for LCD

We recommend a minimum distance of 25mm from the end of plastic lens to the screen within the panel to achieve a uniform surface light.

Technical Data:

1. LED chip size: 3.0mm x 3.0mm x 0.6T
2. LED chip input voltage: 2.8-3.6V
3. LED chip current: 500mA
4. LED power consumption (Type): 1.6W
5. Brightness: ≥ 140 Lm
6. Color coordinates: X= 0.0625-0.2717, Y= 0.2450-0.2650
