

Insulation Displacement Connectors

URC-100PK 3-Wire UR IDC Insulation Displacement Connectors (Red)

Repair broken wires or splice in additional wires to an existing voice, data, or low voltage circuit

Features:

- For single conductor solid copper wire 19 - 26 AWG
- Insulation on the wires does not have to be stripped before termination
- Put wires in place and push button with pliers or crimping tool
- Moisture resistant sealant protects wires from corrosion
- Package of 100, gel filled plastic connectors

Applications:

For telecom, datacom, automotive, small appliances and other applications

Ordering Information:

URC-100PK 3-Wire UR IDC Insulation Displacement Connectors (Red)

UYC-100PK 2-Wire UY IDC Insulation Displacement Connectors (Yellow)

Repair broken wires or splice in additional wires to an existing voice, data, or low voltage circuit

Features:

- For single conductor solid copper wire 21 - 26 AWG
- Insulation on the wires does not have to be stripped before termination
- Put wires in place and push button with pliers or crimping tool
- Moisture resistant sealant protects wires from corrosion
- The small size of the UY connector reduces the splicing bundle O.D. to a minimum.
- Package of 100, gel filled plastic connectors

Applications:

For telecom, datacom, automotive, small appliances and other applications
