

STR-NCP3235-EVK: Enables the Strata hardware evaluation ecosystem via configurable NCP3235, 15A Regulator

Strata enables seamless evaluation of hardware devices such as this configurable NCP3235 regulator. The DC regulator can be controlled via a simple, easy-to-use UI which allows users to both measure and control key regulator functions. Design collateral such as schematics, PCB layout, test reports, etc. are supplied in the same Strata interface to ease evaluation. This design serves as a vehicle for ON's customers to start taking advantage of the new Strata ecosystem. Future designs encompassing more of ON's power solutions are in the works! See the Strata webpage at <http://onsemi.com/strata> for more details!

Evaluation/Development Tool Information

| Product | Status | Compliance | Short Description | Parts Used | Action |
|---------------------------------|--------|------------|--|---|--------|
| STR-NCP3235-EVK | Active | Pb-free | Enables the Strata hardware evaluation ecosystem via configurable NCP3235, 15A Regulator | 2N7002W , ESD7L5.0DT5G , NCP3235MNTXG , NCP705MTADJTCG , NCS210RMUTAG , NCT375DMR2G , NSR20F20NXT5G | |
