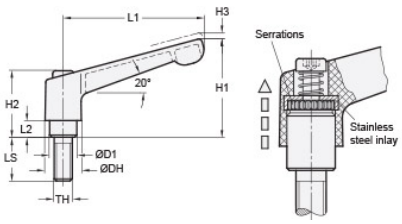
LA92-1/2X13:32-PS

Ruland Adjustable Clamping Lever, Lever Length 92mm, Stud Thread 1/2X13, Stud Length 32mm, Plastic Lever, Stainless Steel Inserts



Description

Ruland LA92-1/2X13:32-PS is an adjustable clamping handle with a 92mm handle, 1/2X13 threaded stud, 32mm stud length, 19mm insert diameter, and 65mm overall height. The handle is plastic and the inserts are stainless steel for reduced weight, easier adjustment of the handle in light duty applications, and use in corrosive environments. LA92-1/2X13:32-PS is commonly found in packaging, printing, food processing, and medical systems where conveyor rails, sensors, screens, and other components require frequent adjustments without the use of tools. The adjustable feature of this handle allows it to be used in confined spaces with limited hand access or where 360 degree rotation is not possible. Serrations connect the insert to the handle for easy disengagement. The user pulls the handle upwards by hand to disengage the serrations allowing it to be swiveled to the desired clamping position. Serrations automatically re-engage once the user releases the handle locking it in-place. A 1/2X13 threaded stud can replace existing hardware in an application or mate to an equivalently sized tapped hole for a quick installation. LA92-1/2X13:32-PS is black to seamlessly integrate with the aesthetics of most equipment. It is manufactured by JW Winco, stocked by Ruland, and RoHS3 and REACH compliant.

Product Specifications

Thread (TH)	1/2 in - 13 TPI	**Stud Length LS**	32 mm
Lever Length L1	92 mm	**Overall Height H1**	65 mm
Hub Height H2	43 mm	**Hub Diameter DH**	25.2 mm
Handle Disengagement Travel H3	4 mm	**Sleeve Length L2**	11 mm
Sleeve Diameter D1	19 mm	**Handle Material**	Plastic
Handle Color	Black	**Insert and Screw Material**	303 Stainless Steel
Weight (lbs)	0.272000	**Manufacturer**	JW Winco/ Otto Ganter
UPC	634529237748	**Country of Origin**	USA
Tariff Code	3926.90.2500	**UNSPC**	31162807
