

## USB Mains Adapter, 18W, 5V, 3A

SKU 750-00001

# Product Description

### USB Mains Adapter Overview:

This handy 100-240V input wall charger converts AC to a convenient 5 V supply with up to 3.0 A of current. Use it with the USB A to DC 2.1 mm Jack Cable (#805-00019) to power your Propeller 2 development system. Compatible with the P2 Edge Mini Breakout Board (#64019) and P2 Edge Module Breadboard (#64020).

The advantage of this combination is that it eliminates having to carry and store a larger wall plug power supply — use your computer's USB port or the small 120V to USB 5V 3.0A wall pack.

### USB Mains Adapter Specifications:

- 100-240 VAC input and 5 V 3.0 A output
- CE & FC Certified
- Fuse-protective system for over-current protection
- Weight: 1.2 oz (34 g)
