

MT12-SROD-200-SS, With Scale

Ruland Hollow Round Tube With Scale, OD 12mm, ID 9mm, L 200mm, Stainless Steel

Description

Ruland MT12-SROD-200-SS is a solid round tube with scale with a 12mm outside diameter, 9mm inside diameter, and 200mm overall length. It is designed to fit with Ruland clamp connectors, swivel components, and mounting bases that begin with MT12. MT12-SROD-200-SS is made of 304 stainless steel for high corrosion resistance. It is used to support components for mounting sensors, screens, reflectors, plexiglass machine guards, and other industrial components. Major increments are 10mm and minor increments 1mm giving the user a high degree of adjustment precision. When the system combines this tube with a clamp or swivel connector with adjustable clamping handle, the user can make fine rapid adjustments for improved efficiency and accuracy. MT12-SROD-200-SS is hollow for reduced weight and to help protect wires from components such as cords and screens from being damaged. When combined with MT12-RTUBECAP-P tube caps the user can drill in the tube cap to reduce cords exposure to the operating environment for safety. It is precision ground to help reduce surface imperfections. MT12-SROD-200-SS is manufactured by Otto Ganter, inventoried by Ruland, and RoHS3 compliant.

Product Specifications

Outside Diameter OD	12 mm	Inside Diameter ID	9 mm
Overall Length L1	200 mm	End To Scale L2	15 mm
Fits With Clamps	MT12	Tube Tolerance	h11
Weight (lbs)	0.164000	Material Specification	304 Stainless Steel
Manufacturer	JW Winco/ Otto Ganter	UPC	634529230862
Country of Origin	Germany	Tariff Code	7609.00.0000
UNSPC	31162908		

Note 1	Performance ratings are for guidance only. The user must determine suitability for a particular application.
