Benzyl Acetate Data Sheet

Catalog sizes	100g , Listed as 100g Benzyl acetate, BZAC00100 500g , Listed as 500g Benzyl acetate, BZAC00500 1kg , Listed as 1kg Benzyl acetate, BZAC01000
Category	Esters
Product specification	Colorless oil <ul style="list-style-type: none">· Product ID: BZAC· CAS: 140-11-4· Formula: C₉H₁₀O₂· MW: 150.17g/mol· Density: 0.9-1.1g/ml· BP: 200-210C· Flash point: 93-101C
Product description	<p>Benzyl acetate is a sweet, uplifting, floral, jasmine-like ester of acetic acid and benzyl alcohol. It is soluble in oils, alcohols, and mainstream organic solvents. Due to its hydrophobic character, benzyl acetate is good solvent for greases, oils, inks, lacquers, resins, polishes, cellulose acetate, and dyes. It is primarily used in perfumery cosmetics and cleaners as a fragrance.</p> <p>Common cosmetic products include soaps, deodorants, shampoos, floor polish, hair conditioner, detergents, cologne, incense, candles, fabric softener, etc. Benzyl acetate is also popular as a bees and butterfly attractant</p>
