

MT12-CC1W-M5-A

Ruland One-Way Connector Clamp, Thru Hole 12mm, L 38mm, Aluminum

Description

Ruland MT12-CC1W-M5-A is a one-way base connector with a 38mm base diameter, 12mm round thru holes, 10mm square thru hole, and M5 clamp screw. It is designed to fit with Ruland tubes that begin with M5. MT12-CC1W-M5-A is aluminum and screws are 304 stainless steel for use in most industrial applications. This one-way base connector is typically used as a base in support structures for mounting sensors, screens, reflectors, plexiglass machine guards, and other industrial components. It can be permanently installed on extruded aluminum frames, sheet metal, and other surfaces using M5 hardware or the user can opt for portability by using MAGNET-43-27 magnetic base. MT12-CC1W-M5-A is a cost effective option when compared to two-way bases for users that only require a tube in one orientation. MT10:12-ALK-M5-20 adjustable clamping handles can be used in place of standard hardware if rapid fine repositioning of the tube is required. MT12-CC1W-M5-A is manufactured by Otto Ganter, inventoried by Ruland, and RoHS3 compliant.
