

Product Description

QMC-MX4-15F13 is a high performance active multiplier at an excellent value.

These multipliers operate using a single positive voltage from 7-12VDC

Internal reverse bias protection ensures reliability

Technical Specifications

Input Frequency: 12.5 to 18.75 GHz

Input Power: +8 to +13 dBm

Multiplication Factor: X4

Output Frequency: 50 to 75 GHz

Output Power: 13 dBm min, 15 dBm typ

DC: +8V @ 600 mA typical

Signal Purity: -20 dBc typical

Waveguide: WR-15, UG-385
